

SPENCER/CHEMUNG AMERICAN RACER TIRE PROCEDURES

- All tires used in heats and features must be plated CH/SP or approved prior to the start of the event.
- HEATS AND FEATURES ARE RUN EACH NIGHT ON THE SAME FOUR TIRES.
- First week each team allowed four new tires. If a team misses week one and comes week two they will be allowed two new tires and must purchase two used tires from inventory \$25 each for used (contact Chris Vogler 585-727-1354).

If a team doesn't come week one or two they will only be allowed two sticker tires and have to purchase two used tires.

- Each week a team competes they will be allowed to add one new tire to their inventory.
- A minimum number of laps must be run in the feature to earn tire credit for the following week (no start and park).
- Newest tires must remain on car each week i.e.:
 1. week one: four new.
 2. week two: one new and three from week one.
 3. week three: new tire from week two, two tires from week one and a sticker tire for week three.
- If only right side tires are purchased then oldest right side goes to your tire bank.
- Tires can be moved on the car from rights to lefts.
- You are not mandated to buy a tire every week but you can't bank it for the following week, you can run the same four tires from the previous week.
- Banked tires are for spares only and will be introduced back onto your car only if you lose a tire in a wreck.
- Your four feature tires will be impounded at the end of each night (Spencer only at this time Chemung subject to impound if needed).
- Max 12 tires in your tire bank As tires come off your car oldest ones will be pushed out of bank.
- Teams are only allowed to purchase four CH/SP plated tires before first race, if you run them in test and tune then you start opening night on them.
- Tires remain with driver. If you borrow another car because of crash driver uses his tires on competitors car.
- If a sticker tire gets ruined in a heat due to a crash a new sticker tire can be purchased (ruined tire has to be turned over) If tire is deliberately ruined this will not apply!!
- NO ALTERATIONS TO TIRES WHATSOEVER ALLOWED!!!

This means no grinding polishing soaking NOTHING!!!

Failure to comply will result in DQ or loss of all tires and being given four tires to race on.
